# OPEN FOR APPLICATION

**RANA**, the **R-Adhikarya "Niche" Award**, is a token of appreciation and recognition for smart, innovative, and competitive young students who wish to further pursue their dreams of learning, exploring and applying disruptive ideas, and "niche" innovative thinking in their studies and future careers.

**RANA** is a **competitive Award** offered annually at three (3) world-class US educational institutions,

- **The East-West Center (EWC) in Honolulu, Hawaii,**
- **Stanford University in Stanford, California,** and
- **Cornell University in Ithaca, New York** (at the Department of Global Development),

that will help encourage, motivate, and increase the confidence of promising students to **explore unique and unusual - as opposed to "more-of-the-same" competencies and solutions in their future careers.**

It is to reward those who dare to think differently and are interested in **studying and solving important contemporary problems** and/or **future societal needs/wants** not currently being considered or significantly addressed by others. It supports young visionaries to develop a **"Growth Mindset"**.
